

# ONE

4,000 lb

## Electric Forklift

\$ 11,999

- Solid tires for indoor and mixed-use environments
- Compact width for efficient aisle operation
- Tight turning radius for improved maneuverability
- Side shift included for precise load positioning

• Operation	Seat-driven
• Load capacity	4,000 lbs
• Load center	20 in
• Standard lift height	10 ft
• Overall width	43 in
• Turning radius	88 in
• Fork dimensions	1.6 × 4.8 × 42 in
• Battery	Lithium 200Ah
• Drive motor	5.5 kW
• Lift motor	5.5 kW
• Tire type	Solid
• Forklift weight (with battery)	6,280 lbs

ONE is a 4,000 lb electric forklift designed for everyday warehouse, retail, and light industrial operations. With a standard lift height of 10 ft, it provides a balanced and practical solution for daily material-handling tasks in a wide range of indoor applications.

Powered by a 48V 200Ah lithium battery and equipped with solid tires, ONE is built for stable performance and low maintenance. Its compact footprint and tight turning radius allow confident operation in narrow aisles, while the integrated side shift improves accuracy and efficiency during load handling.
